

In this part, two horizontal red lines will appear one above the other.

Your task is to select which **line is longer** in length as fast as you can, without making errors.

Don't get distracted by the surrounding black arrows at the end of the red lines!

Press **the UP or the DOWN arrow** to indicate where is the longer **red line**.

In this example, the correct answer is the **UP arrow**.

Are you ready? **Press ENTER to start**
